

Hosny Ahmed Hosny

New Cairo, Egypt | 01068157113 | hosny111ahmad@gmail.com

Professional Summary

Cyber Security undergraduate with a solid foundation in networking, system administration, and security fundamentals. Possesses academic and training-based exposure to security tools including Kali Linux, Wireshark, Nmap, Metasploit, and Burp Suite, in addition to foundational knowledge of Python and C++. Demonstrates strong communication, problem-solving, and teamwork abilities, with an interest in pursuing internship opportunities in cyber security and information security environments, particularly within structured and compliance-driven organizations.

Education

Future University in Egypt (FUE)

Third Year

Bachelor's Degree in Computer Science — Cyber Security

Technical Skills

Cyber Security and Networking

- Network fundamentals, routing and switching basics
- Cyber security fundamentals
- Basic vulnerability assessment and security testing concepts

Tools and Platforms

- Kali Linux
- VirtualBox
- Wireshark
- Nmap
- Metasploit
- Burp Suite
- Cisco Packet Tracer
- SQL Server Management Studio

Programming and Development

- C++ (Fundamentals)
- Python (Fundamentals)
- Flutter (Basic Exposure)
- Firebase

Software and Design Tools

- Figma
- Visual Studio
- PyCharm
- Android Studio

Soft Skills

- Communication
- Problem Solving

- Teamwork
